Message

Dear Students,

As we brace ourselves for the new Academic Session, we find ourselves amidst the new education system. Education, being the most powerful reformative agency helps to bring clarity of vision both at micro and macro level and paves the way for the evolution of one's character and fulfillment of student's potentials. The multidisciplinary college curriculum provides an extraordinary opportunity to develop a scientific temper, analytical skills and knowledge to address the messing social concerns with a novel bent of mind.

The vibrant ecology of the college enables us to reach out to students with diverse cultural backgrounds where we inculcate educational achievements and human values through structured classroom/campus pedagogy and extracurricular activities. The faculty of the college is committed to promote holistic development of students in both academic and non-academic spheres with emphasis on empowering students to become responsible citizens of the nation.

I wish all the very best to the students who are going to be the part of this historic Government Mohindra College.

About Us

An architectural marvel called Government Mohindra College, Patiala was established in 1875 with its foundation stone was laid by the then Viceroy of India Lord Northbrook and was named after Maharaja Mahendra Singh of Patiala. Initially it was affiliated to the University of Calcutta and later on became one of the affiliated college of the University of Punjab, Lahore's 1882. Following the partition of India in 1947, the college came under the purview of the Punjab University Chandigarh and in 1962 under the Punjabi University, Patiala.

Being ever responsive to the changes, embrace them wholeheartedly and adapt its strategies thereupon not only to sustain and deliver in the immediate context but to remain in the reckoning in the overall educational ecology of the Northern India has been the ultimate philosophy of the college. To cater to not only the present educational needs of the area but also proactively to the emerging ones has enabled the college to be in its own league and stay ahead of times in terms of offering a host of courses in as diverse disciplines as E-governance and taxation, software development and computer programming etc. along with an array of traditional ones of the undergraduate and post graduate level.

Fired with the necessary zeal for excellence in all its pursuits, academic or otherwise, the college always keeps insight the achievable educational goals. The college has always kept its perspective clear and well laid out plans ready encompassing all the segments right from the admissions of the Student, their educational outcomes, their personality development and enrichment of skills - both professional and life skills.

In recognition of it's contribution to higher learning the Govt. of India issued a commemorative postage stamp of Mohindra College on March 14, 1988. Later on State Government adjudged the college as one of the four model Colleges of the state. The college was awarded the A+ Grade by the NAAC in April 2005 in the cycle I and in the cycle-II the college was laced with "A" Grade with CGPA 3.86 in Feb 2016, the highest score given to any college in Country. Earlier it had the Coveted status of "College, with Potential for Excellence" from University Grants Commission and was adjudged the star College in Life Sciences" by the department of Biotechnology (DBT), Government of India. The college continues to make rapid growth in academics, sports and cultural fields and this obviously is in consonance with the college missions and goals.

HIGHER EDUCATION INSTITUTION SOCIETY (HEIS)

The HEIS (Higher Education Institution Society Regd. No. 1759) is a college level body that works under the overall framework provided by Punjab Higher Education Society. The primary objective of this society is to prepare and implement comprehensive policy to equip students with necessary skills and knowledge to meet the dynamics of challenges that the fast changing global scenario extends in equality educations, innovation and research.
